OUR STRONGEST DEFENSE

Our navy may be perilously small compared with those of rival powers; our army may be hopelessly inefficient; our coast defenses may be inadequate; but in one phase of preparedness, at least, we are all right—we have first class facilities for manufacturing war munitions.

It was a surprising statement that Charles M. Schwab made the other day. He declared that in the Bethlehem steel plant as it stands now this country has the greatest ordinance factory in the world, with a capacity of 50 per cent larger than that of the famous Krupps plant in Germany.

That plant is but one of many that could be made available for the sole use of the United States government in case of need. And the patriotic attitude taken by Mr. Schwab in regard to his own factory may be taken as typical of the industry in general.

He reminded his hearers that the Bethlehem company had been supplying the government with guns, shells, etc., in the last two years, at the same prices that prevailed before the war, in spite of the increased cost of materials, and that it desires to continue holding itself at the government's disposal. It will make armor-plate or munitions of any sort, he says, at prices to be fixed by the federal authorities. It is willing at any time to turn over its plant to the government "at fair operating cost, plus a small margin of profit." It is now undertaking to build a $4,500,000 plant for building 16-inch guns, without any insurance from the navy department that Uncle Sam will buy the guns. The company does not expect, he says, to make any profit from that plant under any circumstances, but is building it as a patriotic contribution to the national denfense.

Circumstances have solved to us, without public trouble or expense, a problem which all the belligerent nations have found vexatious and costly. In case of war we shall need, above all, vast stores of munitions, and we have our munitions industry already organized by private enterprise and ready to serve the nation. The government should not neglect to take full advantage of it.

HERALDRY FOR AVIATORS.

Aviation experts are impressed by the complaint of Miss Ruth Law who recently flew from Chicago to New York, that it was impossible for her to identify from a high altitude the cities and towns beneath her. She found that no method yet devised enabled her to assure herself that a populous center she was approaching possessed an aviation station at which she might alight. It is hard, she discovered, for a flier even close to the ground to make use of a code book that couples numbers or letters with the names of places beneath an aviator's chosen route.

Would not the use of symbolism, the employment of a kind of aviation heraldry, solve a problem that must be overcome before air navigation can become as popular as automobiling? Though the name or number of a town cannot be plainly seen from an aeroplane, a heraldic device, constructed upon a large scale, would be visible from a lofty height.

Circumstances have conspired to make the above suggestion feasible. The crude beginnings of what might be called local blazonry have long existed in this country. To illustrate the possibilities of the scheme suggested, let us take, for example, the city of Troy, N. Y. A gigantic collar and pair of cuffs raised above its aviation station would serve to give even the least intelligent birdman his bearings. A huge bag of salt could put Syracuse on the aviator's map. A big real estate dealer would identify Los Angeles. A bottle of beer for Milwaukee, a plate of beans for Boston, a huge terrapin for Baltimore, an automobile for Detroit, an oak tree for Hartford, Conn., a big blue football for New Haven, Conn., a large phonograph for Orange, N. J., are among the heraldic devices that suggest themselves as applicable to the scheme.

Would it not be admirable for American aeronauts to establish at once a college or town and city heraldry for the encouragement of aviation? An alliance between local pride and the needs of airmen could be easily accomplished, and the thousands of men and women who are anxious to fly away from Chicago at the earliest possible moment would not be confronted by certain annoying difficulties that hampered Miss Ruth Law in her recent aerial escape from the Lake City.

SPEED MANIACS

Automobile and motorcycle speed maniacs are the bane, not only of pedestrians and drivers of horse-drawn vehicles on the public highways, but of the sane drivers of motor vehicles as well. Generally speaking, motor drivers are a careful and sane lot of men and women, but there are those among them who want to get all the speed possible out of their car or motorcycle. This is the dangerous element, not only to themselves, but everybody having occasion to travel the public highways. It is to guard against these people that speed laws are enacted and even with these and strong penalties attached there are constant violations.

A man down in Bakersfield thinks he has hit on a plan to curb these speeders and he would make a fine for the punishment for the first offense. For the second offense he would have the license recalled for the remaineder of the year. For the third offense, the speeder would be forever debarred from obtaining a license in the state.

In that manner, the speed maniacs would, in time, all be weeded out through their inability to obtain licensed cars, and the roads would be far safer for the sane drivers than they are today

Paying $18,000 for a lunch was going some, but that is just what one cost an Arkansas City jeweler, in diamonds—he left a single clerk on duty, and a robber with a gun did the rest, leaving the clerk in the vault.

Oh, yes, the war has increased other things besides prices—for instance, fish in the North Sea, where their catch has fallen off more than one-third, owing to the sinking of fishing boats.

An Italian aviator who went up five miles struck a temperature of eighty-nine below zero. He must have been somewhere in the vicinity of the point of the northern peninsula of Michigan.

Native garnets are said to have been discovered in the soil underlying New York city. Maybe if they dig a little deeper they'll strike native gold bricks.

Though swatted more or less severely for a century, the electoral college is still on the job.

"THE YELLOW PAWN" COMING TO RICHMOND THEATRE FRI. AND SAT.

MISS MARGUERITE CLARK, Ameri ca's most versatile film actress, who appears at the Richmond this even ing in "Miss George Washington."

The average inveterate liar must possess a phenomenal memory or carry a note book in order to prevent mixing up his stories. But little Bernice Somers was so fast on her mental feet when it came to concocting lies that she needed neither memory nor note book—so her sarcastic friends called her "Miss George Washington." One need only mention that "Miss George" in this case is none other than Marguerite Clark, who plays the title role in the Famous Players-Paramount picture "Miss George Washington" at the Richmond theater today, to arouse interest in this particular small fibber. It is Miss Clark's first production since the signing of her new contract with the Famous Players and was directed by J. Searle Dawley.

"THE YELLOW PAWN" NEXT

The cruel, merciless methods of the "third degree" for criminals have been raised to the nth power by the modern detective and police heads. The amount of labor they will go through to entrap, ensnare, and bring forth a confession of the person they believe guilty, is shown in the most graphic manner in the Jesse L. Lasky production of "The Yellow Pawn," which will be seen at the Richmond Theater on Friday and Saturday with the two clever stars, Cleo Ridgley and Wallace Reid in the principal roles.

The play has to do with the intrigues of a district attorney, jealous of his wife's infatuation of a young artist, and the methods he employs in a vain endeavor to send an innocent man to the gallows, and how, while furthering his nefarious crime, he loses his life, just as he is about to take the life of another.

In the cast supporting the two stars are Tom Forman, C. H. Geldert, William Conklin, Olive Golden, George Webb and others.

NOTES FROM THE PLAYHOUSES

OAKLAND ORPHEUM

Fascinating as the ordinary Oakland Orpheum bill usually is, the devotees of vaudeville have announced the current show to be even more tempting than any seen in many moons. There are three remarkably clever single women comediennes at the Orpheum this week and that makes for brilliancy and sparkle. A very amusing animal comedy act, a beautiful playlet by a great actor, a smashing good quartette of men, a European novelty with which to open the show and some striking pictures are all found in the program.

Nellie Nichols and Anna Chandler, perhaps the two greatest singing comediennes in vaudeville are each scoring a solid success. Miss Nichols hase never produced a better offering than her Italian imigrant woman number including as it does a dramatic sketch along with her songs. Miss Chandler also has far better material than any she has offered before and the result was a triumph for her.

Clayton White, one of the best known actors in America offers a charming play "Peggy" in which laughter and tears come at quick intervals. The Volunteers, a male quartette of notable class; Fink's Mules who proved a festival of fun for everybody; Lottie Horner, a dainty miss with some delightful songs; Ollie Young and April with a unique soap bubble act; Harry Mayo and Mary Tally, who sing and chat in amusing style and some excellent Paramount motion pictures round out the bill.

OAKLAND PANTAGES

"The Betting Bettys" and the "London Bell Ringers" continue to be the star features of an interesting bill at the Pantages this week, that is drawing heavily. There are other big features on the bill as well, for besides the lively tabloid and the novel musical act are such features as Olive Briscoe, whose songs are a joy forever, and Stanley and Burns, with their remarkable dances, Sigsbee's wonderful dogs and other star features.

Next week comes Hardeen, the wonder worker. Locks, bolts and bars are toys to him. He is the veritable genius of escape. Like his brother, Harry Houdini, he seems simply to melt from restraint.

But this Oakland engagement will be more than usually interesting. He is to endeavor to unravel a secret locked in the grave, when he attempts Robert Heller's cross illusion, bequeathed to E. M. Lipka, an Oakland magician, and performed alone in all the world by this artist. Hardeen has never heard of the solution, and will attempt to make the escape without seeing it, from the Pantages stage. He will also be locked in special cuffs and a straight jacket by Sheriff Barnett and several police officers. He will attempt other sensational feats.

Other big acts are coming with the Hardenn bill.

WITH STATE LEGISTATURE AT SACRAMENTO STATE CAPITOL

FREE SCHOOL BOOKS.

Free text books in high schools of the state is the aim of a bill which will be introduced by Assemblyman Dan E. Williams of Inyo county. Willians was one of the authors of the Shannahan free text books bill, passed in 1911, and is one of the best informed men in the legislature on educational matters.

Williams proposes to have high school students throughout the state provided with free text books in as many of their courses as possible. In the cases of some texts, especially those in scientific courses, the number used is small, and it would not be practical to have the state print them.

CUT OUT "THIRD DEGREE"

Assemblyman W. A. Doran of San Diego is on the lookout for public officials, their pay and their methods. He has a bill to prohibit the "third degree" by police. Another of the measures he will propose is to compel public officials to forfeit their pay while absent from the position on private business, except during regular vacations and on holidays.

Doran has an amendment to the motor vehicle act by which he seeks to prevent autoists from carrying baggage on the left hand side of the machines. This practice is said to be the cause of many accidents.

BOON TO REPORTERS.

Editors, correspondents, reporters and special writers soon will be relieved of the ever-threatening law which makes it a crime to publish any news item or editorial without the name of the writer attached. This is unpopularly known as the newspaper signature act.

Relief will come through a bill to be introduced by Charles W. Lyon, assemblyman from Venice.

It will be to repeal this antiquated and useless law, which never was enforced, and which was passed by one of the legislatures in the dim past.

A bill was passed in the last legislature repealing the so-called anti-cartoon act, which prohibited the publishing of cartoons of people without their written consent.

BLOW TO JURORS.

The professional jury system is aimed at in a measure to be introduced by Assemblyman Charles W. Goetting of San Francisco. The bill is in the form of a section to be added to the Penal Code, providing that a challenge may be taken on a talesman on the ground that he has served as a juror in a criminal case within one year.

TO STUDY SALOONS.

A state honorary commission to make a scientific study of the liquor question and recommend legislation for the permanent settlement of the question will be a provision of a bill to be offered by Assemblyman Milton T. Marks of San Francisco. The investigations of the commission the bill would extend over a period of two years.

GERMAN RAIDER SAID TO HAVE BEEN SUNK

NEW YORK, Jan. 11.—Persistent reports that a German raider was met in the Atlantic and sunk by a British cruiser yesterday afternoon, were current today in well informed steamship circles. Details are lacking, as are the identity of the vessels engaged and the location of the encounter.

TWELFTH ANNIVERSARY

Mr. and Mrs. George Glum, 141 Twelfth street, celebrated their twelfth anniversary at their home Tuesday evening.

Jan. 29.—Grand prize whist party by the ladies of St. Paul's Catholic church.

Romping and playing in the snow is every healthy boys birthright, but he's apt to neglect precautions against dampness.

A cold results—then Dr. King's New Discovery proves its worth. A few doses loosen the phlegm, relieve the tight chest, the healing balsams soothe the throat raw from coughing, and the mildly laxative qualities expel the cold germs and the child is healthy and happy again.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backachy or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

—Advt.

SOME GOOD ADVICE.

Strengthened by Richmond Experiences.

Kidney disease is too dangerous to neglect. At the first sign of backache, headache, dizziness or urinary disorders, you should give the weakened kidneys prompt attention. East little meat, take things easier and use a reliable kidney tonic. There's no other kidney medicine so well recommended as Doan's Kidney Pills. Richmond people rely on them. Here's one of the many statements from Richmond people.

J. F. Maskal, 219 S. Eighth St., Richmond, says: "I had an attack of lumbago several years ago. When I tried to raise after stooping, a sharp pain struck me in the small of my back. My kidneys acted too frequently, causing me to arise several times at night and I had dizzy spells when things seemed in a whirl. Two boxes of Doan's Kidney Pills cured me and put me on my feet in good shape."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Maskal. Foster-Milburn Co., Props., Buffalo, N. Y.—Advt.

Appeal to Reason

¶ Ask any of the great army of **Postum** users what influenced them to try this beverage, and the reply nine times out of ten will be that they were convinced the caffeine and tannine in tea and coffee were harmful to health.

¶ Some imagine it is hard to give up coffee and tea. But it isn't, with the delightful aroma and flavor of **Postum** at hand. This flavour somewhat resembles that of a high-grade Java coffee, but there is no coffee in **Postum**—only the nourishing goodness of wheat, skilfully processed with a small per cent of wholesome molasses.

¶ **Postum** comes in two forms: **Postum Cereal**, which has to be boiled; **Instant Postum**—soluble—made in the cup, instantly. Some prefer one, some the other. Made right, they are alike delicious, and the cost per cup is about the same. There's better health, comfort and efficiency in
